

## **VR Journey – Week 5: Empathy**

On Wednesday, during class time you will be doing individual VR experiences. You will need to download the Youtube 360 application for the Oculus Quest 2. Please view any three of the following six VR pieces (links below). Please try to experience each until the end as they are narrative pieces that follow an arc.

Also, remember to turn your head around to take in the entire scene. It is particularly engaging to watch the pieces twice, the first time naturally following the narrative as the director intended, and the second time to really make sure you look in places you didn't the first time. (Remember to snap a screenshot during the experience and upload it to the Canvas assignment.)

1000 Cut Journey Playthrough \*\*\*\*\* This is not a VR piece, just a 2-dimensional video. You may watch it in the HMD, but it will not be as immersive as 360-degree videos: [Google Drive Link]
